Summary

Motivated AI Developer with a strong foundation in database development and data engineering. Skilled in integrating AI technologies with traditional data systems to build intelligent, data-driven applications. Experienced in chatbot development, RAG systems, and OpenAI API integration using Python and LangChain. Combines deep expertise in SQL and PL/SQL with hands-on experience in cloud platforms (AWS) and ETL workflows to design scalable, high-performance solutions.

Skills

Skills

AI & Development: OpenAI API, LangChain, RAG, Chatbot Development, Python, VertexAI.

Data & Databases: SQL, PL/SQL, PostgreSQL, Oracle, Data Modeling, ETL

Cloud & Workflow: AWS, Google Cloud, Apache Airflow, n8n

Enterprise Systems: Oracle EBS (OEBS), SAP R/3, ABAP

Other: REST API Integration, Swift

Experience

Database Developer / GenAI Developer — *Freelance*
09/2024 – *Present*

- Built AI-powered chatbots and RAG assistants integrating OpenAI models with private data sources.
- Developed Python-based pipelines for data ingestion, transformation, and analysis.
- Optimized Oracle PL/SQL procedures and designed modular educational databases.
- Integrated REST APIs and automated workflows using n8n and AWS.

Student - 02/2024-07/2024
QALight
   Python Development

Software Developer - 04/2015 to 08/2018
KM Ware

Education

Zaporizhzhya National Technical University

Master of Computer Science

1998 – 2003

Certification

AWS Certified Cloud Practitioner

https://www.credly.com/badges/70618c58-5f25-4c30-b9fc-1494db9cc66d/public_url

- Developed and optimized PL/SQL scripts for business processes
- Implemented customizations and workflows in SAP R/3 and Oracle EBS systems
- Designed and maintained iOS applications using Swift
- Created and consumed REST APIs using JSON and Java
- Managed databases including Oracle, PostgreSQL, MySQL, and Firebase
- Collaborated with teams using Redmine, Jira, and Github for project management

Oracle Database Developer - 10/2006 to 02/2015
JSC «Kvazar-Khorte»

- Developed and optimized SQL/PLSQL queries
- Built ETL processes for data migration and transformation
- Automated reporting using Oracle Reports and XML Publisher
- Participated in the implementation of Oracle e-Business Suite across multiple companies

Collaborated with IT teams to troubleshoot and validate data integrity across multiple systems.

ABAP Developer - 09/2003 to 06/2006
JSC «Motor-Sich»

Developed custom SAP R/3 modules for HR, FI, QM, and PP processes.

Worked closely with business analysts to translate functional requirements into technical solutions.
